Dear Valued Patient,

On November 1, Oklahoma joined several states in a nationwide movement to restrict opioid and Schedule II medications prescribed for managing pain. **In order to be in compliance with this new law, we are required to change our clinic policies regarding the prescribing of pain medication.** You will need to continue attending your follow up appointments as suggested, but the frequency of those appointments could change. Oklahoma SB 1446 places patients into one of two categories, Acute Pain (temporary) or Chronic Pain (on-going). You will be required to sign a Patient / Provider Agreement prior to receiving a Schedule II medication.

- Acute Pain: SB 1446 places a 7 day supply limit on your initial prescription. If you need an additional 7 day supply, an assessment by your physician, physician assistant or nurse practitioner is required. If you need an additional supply of pain medication, you must be assessed for chronic pain and laws regarding prescribing pain medication for chronic pain will apply.

- Chronic Pain: SB 1446 requires patients to be assessed by the prescribing physician prior to an initial prescription and by either the prescribing physician, physician assistant or nurse practitioner prior to every prescription renewal and every 90 days as well. Your insurance company and your pharmacy may also impact prescription refill timing and limits as well.

Again, the change in our prescription refill policies is required for us to be in compliance with Oklahoma SB 1446.

We appreciate your understanding!
